# **GUILHERME GONÇALVES**

## Senior Full-Stack Engineer

@ inacio.guilherme@gmail.com in linkedin.com/in/inacioguilherme

Nova Friburgo, Brazil ves Si guilherme.i.g.

# **EXPERIENCE**

# Technical Lead & Senior Full-stack Engineer O2 Filmes

Sept 2018 - Present

Remote

- Developed a robust and online text editor and project manager dedicated to screenwriters.
- Developed its Back-end using Rails + MongoDB + Node.js and its Front-end using React JS + Etherpad, operating in a cloud-driven and micro-services architecture written with Terraform using Docker containers running on Amazon ECS clusters.
- Responsibilities included all development tasks (create code, test, automate
  deployments, etc.), training new developers, discussing the next A/B tests to
  be run, and listing/detailing/prioritizing the stories to be played.
- Implemented features such as multi-user tracking, data visualization with D3, notifications, importing, parsing and exporting files, advanced graphical interface features, etc.

# Software Engineer & Scientific Researcher CERN - European Organization for Nuclear Research

Mar 2019 - Mar 2020

- ♀ Geneva, Switzerland
- Designed and developed an energy estimation algorithm for the ATLAS Tile Calorimeter.
- The tool is based on **machine learning** techniques and was developed using **C++** in a world-wide **distributed system**.
- Created a pulse generator used to simulate electronic readouts for data processing and physics analysis.

# Full-stack Developer & Software Engineer DataHex Computer Technology

May 2016 - Jun 2018

- Nova Friburgo, Brazil
- Developed and Designed an Event Ticket application for **Android** with data synchronization and Bluetooth printer.
- Developed and Designed a **cloud-based** Point of Sale system with business management features.
- Developed its Back-end using **NodeJS** and its Front-end using **AngularJS** following the **micro-services** approach.
- Developed a desktop application using **Electron** with data synchronization across the internet and among multiple local network nodes (using P2P).
- Developed an industry-standard authentication system implementing the OAuth 2.0 and OpenID Connect protocols.

# Full-stack Developer & Mobile Developer

## Vista Group Network

- ♥ Nova Friburgo, Brazil
- Developed a cloud-managed parking software using Android devices for ticketing and infringement monitoring.
- Developed an **iOS** and **Android** application for parking tickets purchase using **lonic** and **VB-Net**.
- Created software to detect free parking spaces using **image processing** from surveillance cameras. The tool was developed using **Python** and **Open-CV**.

# **SKILLS**

### **Back End**

Ruby on Rails MongoDB MySQL

Redis Nginx OAuth & OpenID

#### Front End

ReactJS Redux Angular
Webpack D3 TypeScript SASS

# **DevOps**

Docker AWS ECS Terraform
Traefik Kubernetes

### Miscellaneous Skills

Test-Driven-Development Git

C++, Java, Python, PHP, Lua

Android and iOS Development

Electron, Ionic and Expo

Agile development Signal Processing

Machine Learning Cloud Computing

# **EDUCATION**

# Ph.D., Computational Modelling Rio de Janeiro State University

Mar 2021 - Ongoing

Master's degree, Computational Modelling

## Rio de Janeiro State University

# Jan 2018 - Apr 2020

Bachelor's degree, Computer Engineering

### Rio de Janeiro State University

🛗 Jan 2012 - Aug 2017

# **LANGUAGES**

Portuguese English French Spanish

# **OPEN SOURCE CONTRIBUTIONS**

## Etherpad

## A real-time collaborative editor for the web

% https://github.com/ether/etherpad-lite/commits?author=ingoncalves

#### **Athena**

#### The ATLAS Experiment's main offline software

% https://gitlab.cern.ch/atlas/athena/-/merge\_requests?state=all&author\_username=ginaciog

### Scilab

### Free and Open Source software for numerical computation

% https://github.com/scilab/scilab/commits?author=ingoncalves

# **PUBLICATIONS**

# Journal Articles

Gonçalves, G.I. et al. (2020). "Performance Evaluation of Energy Reconstruction Methods in High Energy Physics Experiments". In: Revista Mundi Engenharia, Tecnologia e Gestão (ISSN: 2525-4782) 5.2.

# Conference Proceedings

- Gonçalves, G.I. and ATLAS Tile Collaboration (2021). "Energy Reconstruction Techniques in TileCal under High Pile-up Conditions". In: 28th International Conference on Systems, Signals and Image Processing, Slovakia.
- Gonçalves, G.I., B.S.M. Peralva, L.M. Andrade Filho, et al. (2020).
   "Performance of Energy Estimation Algorithms for the Tile Calorimeter of the ATLAS Experiment." In: Anais do Congresso Brasileiro de Automática. Brazil.
- (2018). "Energy Estimation Based On Wiener-Hopf Filtering For The ATLAS Tile Calorimeter". In: Anais do XXI Encontro Nacional de Modelagem Computacional. Brazil.
- Gonçalves, G.I., B.S.M. Peralva, R.P. Marques, et al. (2017). "Classification Of The Masticatory Side Pattern Using Digital Image Processing". In: *Anais do XX Encontro Nacional de Modelagem Computacional*. Brazil.
- Gonçalves, G.I., W.R. Telles, et al. (2015). "Development Of An Application For Monitoring Real-Time Water Levels In The Bengalas River Based On Direct And Inverse Problems Technical". In: Anais do XVIII Encontro Nacional de Modelagem Computacional. Brazil.

# **ACHIEVEMENTS**

Cum Laude Honors - Rio de Janeiro State University

Academic honors awarded due to the high average grade.
